What I want my physician to know

Mark where your foot rubs or feels sore and note which shoes or surfaces make a difference.

I used to be able to… Now I struggle with…

It started… It feels better or worse when…

I've tried… It helped for…

The main thing I want to decide or do is…

What to bring or send

Bring your usual shoes, any inserts you already use, and earlier foot evaluation records.

- ☐ Prior images and written reports, if available
- ☐ Checked the scan date, body area and side
- ☐ Confirmed the office can open the image files
- ☐ Relevant visit and therapy notes, medication and allergy list

Image date, type and where it was done

What I still need to request or confirm

Questions to ask

- ☐ Can you show me what you notice when you look at how I stand or walk?
- ☐ How can we measure whether I am more comfortable on my feet?
- ☐ If I have prior images, would they help answer today's question? Would another test change the plan?

What will I do next, and when will we check in?

One small improvement I want to notice
