PHYSICIAN CONSULT CHECKLIST

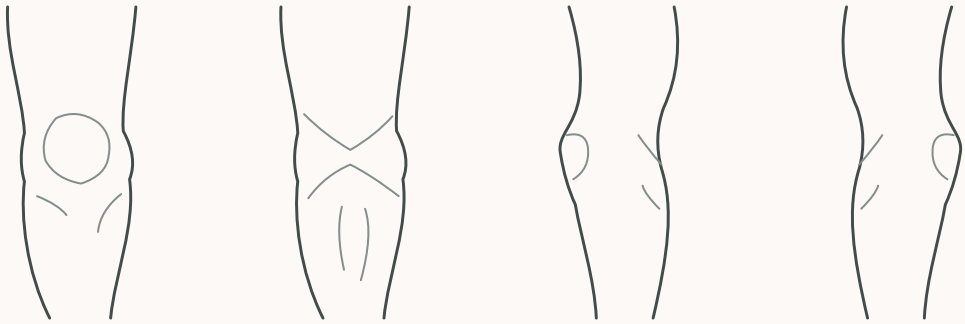
Iliotibial band pain at the knee

Name _____ Visit date _____

Mark where you feel it

Side (left, right, or both) _____

Write a letter where you feel each symptom. Use more than one letter if needed.



N Numbness P Pins & Needles B Burning / Aching S Stabbing

What I want my physician to know

Note the same-mile or time pattern during runs or rides and any change in hills or equipment.

I used to be able to… Now I struggle with…

It started… It feels better or worse when…

I've tried… It helped for…

The main thing I want to decide or do is…

What to bring or send

Bring recent running or cycling logs and any bike fit notes.

- ☐ Prior images and written reports, if available
- ☐ Checked the scan date, body area and side
- ☐ Confirmed the office can open the image files
- ☐ Relevant visit and therapy notes, medication and allergy list

Image date, type and where it was done

What I still need to request or confirm

Questions to ask

- ☐ How do you assess whether the outer knee pain involves the IT band?
- ☐ Which part of my running or riding plan should we review first?
- ☐ If I have prior images, would they help answer today's question? Would another test change the plan?

What will I do next, and when will we check in?

One small improvement I want to notice

Notes from my visit
