N Numbness **P** Pins & Needles **B** Burning / Aching **S** Stabbing

What I want my physician to know

Mark where symptoms occur along the outer joint and describe your usual turning tasks.

I used to be able to… Now I struggle with…

It started… It feels better or worse when…

I've tried… It helped for…

The main thing I want to decide or do is…

What to bring or send

Bring any images and the report that names the lateral meniscus.

- ☐ Prior images and written reports, if available
- ☐ Checked the scan date, body area and side
- ☐ Confirmed the office can open the image files
- ☐ Relevant visit and therapy notes, medication and allergy list

Image date, type and where it was done

What I still need to request or confirm

Questions to ask

- ☐ What will you compare between my report and my outer-knee exam?
- ☐ When should we reassess if the knee still catches during turns?
- ☐ If I have prior images, would they help answer today's question? Would another test change the plan?

What will I do next, and when will we check in?

One small improvement I want to notice
