What I want my physician to know

Decide what you want to explain yourself and where your support person can help.

I used to be able to… Now I struggle with…

It started… It feels better or worse when…

I've tried… It helped for…

The main thing I want to decide or do is…

What to bring or send

Bring questions from both of you, records, and a way to take notes if you want.

- ☐ Prior images and written reports, if available
- ☐ Checked the scan date, body area and side
- ☐ Confirmed the office can open the image files
- ☐ Relevant visit and therapy notes, medication and allergy list

Image date, type and where it was done

What I still need to request or confirm

Questions to ask

- ☐ Could we review the plan in everyday language so both of us understand it?
- ☐ Which follow-up information should my support person have?
- ☐ If I have prior images, would they help answer today's question? Would another test change the plan?

What will I do next, and when will we check in?

One small improvement I want to notice
